

MD FARDEEN ALAM

Backend Developer | Python & Flask

Howrah, West Bengal, India | +91-9163194631 | mfa91631@gmail.com | github.com/fardeen02 | linkedin.com/in/fardeena14

PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience building REST APIs and database-driven backend applications using Python, Flask, and SQLAlchemy. Completed a Backend Development Internship at CodeAlpha delivering CRUD-based API projects tested with Postman. Strong foundation in DSA, OOP, and DBMS, with active expansion into Java/Spring Boot for production backend engineering.

TECHNICAL SKILLS

Languages: Python, Java (OOP & DSA — academic/practice), C, JavaScript

Backend & APIs: Flask, REST API Design, SQLAlchemy, CRUD Development, Postman Testing

Databases: MySQL, SQL, RDBMS

Tools: Git, GitHub, Postman, XAMPP, ReportLab, bcrypt

Core CS: Data Structures & Algorithms, DBMS, OOP, Operating Systems, Computer Networks

EXPERIENCE

Backend Development Intern — CodeAlpha

Aug 2026 – Sep 2026

- Built backend applications in Python, Flask, and SQLAlchemy, implementing CRUD operations, request handling, and MySQL-backed data persistence.
- Designed and tested REST API endpoints using Postman; managed version control and project repositories using Git and GitHub.
- Delivered two complete API projects — URL Shortener and Event Management — documented and published on GitHub.

Teaching Faculty — S.S. Classes

May 2024 – Present

- Mentor 100+ students in Computer Science, Economics, and Commerce, guiding programming fundamentals and academic projects.
- Develop structured learning materials and assessments, translating technical concepts into clear, exam-ready explanations.

PROJECTS

URL Shortener REST API | Python, Flask, SQLAlchemy, Postman

Aug 2026

GitHub: https://github.com/fardeen02/CodeAlpha_URLShortener

- Built a RESTful URL-shortening service with endpoints for creation, retrieval, and redirection.
- Designed SQLAlchemy models for persistent URL storage; validated all endpoints via Postman.

Event Management REST API | Python, Flask, SQLAlchemy, Postman

Aug 2026

GitHub: https://github.com/fardeen02/CodeAlpha_EventRegistration

- Developed a REST API supporting CRUD operations for events, user management, and registration.
- Integrated relational database functionality with SQLAlchemy in a modular backend structure.

ERP Management System | Python, MySQL, ReportLab, bcrypt

Jun 2026 – Jul 2026

GitHub: <https://github.com/fardeen02/EconovaAcademy-ERP>

- Built a CLI-based ERP system for an educational institute with bcrypt-based authentication, covering student records, financial operations (fees, salary, and fund tracking), and academic reporting (attendance, performance, and evaluation sheets) across 15+ integrated modules.
- Automated fee receipts, monthly attendance and academic performance reports using ReportLab with MySQL integration.

EDUCATION

B.Sc. (Honours) Computer Science

Jul 2026

Asutosh College, University of Calcutta, Kolkata, West Bengal | CGPA: 6.964
